

Lisa Groen

FG A E B I E E

ABOUT ME

Software engineer with a strong interest in real-time applications, including game development and embedded systems. Experienced working with emerging technologies such as VR/AR and computer vision. I like the problem-solving aspect and creative thinking that writing software requires, and like to dig deep and learn new technologies to come up with innovative solutions.

Amsterdam

November 26, 1998

EXPERIENCE

Research Intern | UMC Utrecht

. 2024 - A . 2025

DI

AR Software Engineer | Miracle Mile

J . 2021 - . 2021

SKILLS

- OOP Programming (C#, C++)
- Game Programming (Unity, UE)
- Computer Vision (Machine Learning, OpenCV, Tensorflow)
- VR/AR Development (HoloLens, HTC Vive, mobile)
- Embedded Software (Arduino, BLE, sensors)
- Software Optimization (GPGPU (OpenCL), SIMD)
- Frontend (HTML, CSS, Javascript, React)
- 3D Modeling (Blender, Maya)

- Driver's License

LANGUAGES

Dutch (Native)

English (Fluent)

Japanese (JLPT N2)

HOBBIES

- Music
- Crochet
- Cooking (& eating)
- Gaming

EDUCATION

Utrecht University

2023 – 2025

Computer Vision (Machine Learning, Tensorflow, OpenCV), software optimization (GPGPU, OpenCL, SIMD), ray tracing, serious gaming, HCI, 3D data querying, data visualization, game physics.

Amsterdam University of Applied Sciences

2016 – 2020

Object oriented languages (C#, C++, Java), game engines (Unity, Unreal Engine, Game Maker), web development, SQL, embedded systems development, game development and VR/AR development.

Academy of Language Arts

2021 – 2022

Focused on learning Japanese Language for daily and business use, conversational and written Japanese (speaking, reading, writing).

EXTRACURRICULAR ACTIVITIES

Utrecht | Sep. 2024 – Nov. 2024

Teaching Assistant of the course Multimedia Retrieval, providing practical assignment lectures and support.

Utrecht | Sep. 2023 – Sep. 2024

Chair of the first board of a new gaming student association in Utrecht. Focused on attending board meetings, organizing events, and communication with members and externals.
